TO SUPREME COURT

Davis-Dunlevy Election Cases will be Taken this Week.

DECISION OF JUDGE HERVEY

Yesterday Commands the County Commissioners to Declare Dunlevy Elected by a Majority of 84 Votes. The Judge could see no Evidence of Fraud in Action of the Commissioners in their Recount.

Judge H. C. Hervey yesterday con-cluded his examination of the ballots on county commissioner at Moundsville in the certificari proceedings. He had an order entered commanding the county court to count the ballots in accordance with the decision of the court, which they are to do before the list day of this month. When counted according to the decision of the judge, J. W. Demievey will have a majority of about eighty-four votes.

At the conclusion of the count the judge spoke of the county court and the officials in the following complimentary terms, a copy of which was handed the Intelligencer correspondent after it had been submitted to the judge for correc-

"After going over these ballots care fully, I can see nothing to indicate the slightest evidence of intentional wrong, injustice or impartiality on the part of county commissioners acting as ballot commissioners, in canvassing these ballots. I can see, in examining the ballots lots. I can see, in examining the ballous rejected, how the commissioners could have very well come to the conclusion they did, in view of the questions raised before them, with the conflicting views of opposing counsel, and the novel points involved. After a careful inspection of all returns and ballots, I think it but justice to the county commissioners and county court officials to say that I do not find the slightest evidence that the returns or ballots have been in any I do not find the slightest evidence that the returns or ballots have been in any way improperly handled, or that any intentional wrong or injustice is manifest from the returns or ballots before me, and any errors that I have found were evidently the result of a misconstruction of the law and the rules which govern in counting the ballots, as I understand them, and were such errors as could have very easily been made honestly by any court not accustomed to deciding and passing upon such questions."

tions."

It was stated last night by Mr. Davis' attorney, Mr. McLure, that he would immediately take the matter up to the state supreme court of appeals on an appeal from the decision handed down by Judge Hervey.

PORTER REINSTATED

At the Atlantic by the Council Fire

Department Committee.
The council committee on fire departnent held a meeting last night and took action on the application of Dalias Porter, driver at the Atlantic, who asked for his reinstatement. Porter was suspended on Friday last for "talking back" to Foreman Kurner, but the committee, after investigating the matter, decided to reinstate him. A motion to this effect, introduced by Captain Otto, passed unanimously after some discus-sion. Fire Chief Klieves was not pres-

sion. Fire Chief Kileves was not present.

Porier's substitute, James Smith, will be paid, for four day's services, but the committee instructed all parties concerned to the effect that Porter is to resume his duties this morning. Other business transacted was the authorisation of the payment of \$1,000 on the chemicals for the Eighth ward. Fifth ward and North Wheeling fire houses. The chemicals will cost \$1,460, but the committee's balance on hand for this year is but \$1,022.57; which is certainly a good showing, considering the fact that the fire committee gave \$1,450 of its funds to help out other committees. One of the retiring councilmen, Capt. William Otto, of the First ward, has been an earnest and energetic member of this committee for eight years.

A Laundry Combine.

The local laundry men will hold a meeting this evening at Botts' hall, near meeting this evening at Botts' hall, near the Market street bridge, to organize a union. This move is the result of the cut in laundry prices made by a North Market street barber, who charged his customers but six cents for laundrying a shirt, the regular price being ten. The laundry that does this burber's work will not go into the proposed un-ion.
